Welcome

Welcome to the 1st International Congress on Engineering Technologies (EngiTek 2020). This event is intended to represent a major forum for researchers, engineers and students from all over the world to meet in the beautiful and culturally rich city of Irbid to present their latest research results, and to exchange new ideas and practical experiences in the most up-to-date areas of this exciting field.

Coming to Jordan represents a unique opportunity to witness the embrace of history and future. As small in area as it is, Jordan has a rich history spanning thousands of years, a history that a tourist can only admire. Places like Petra and the Dead Sea are only examples of the many one-of-a-kind places to visit in Jordan. On top of all that, Jordan, as a peaceful country in a turbulent area, enjoys extreme levels of safety and security. Jordanian people are internationally known for generosity, hospitality and cultural awareness and tolerance.

Submissions

The type of articles that will be considered for publication include case studies, reviews, as well as theoretical and empirical research. Only papers with top technical quality will be accepted; a fact that is assured by a world-class technical program committee (TPC) and a thorough and rigorous peer review process. All submitted manuscripts are peer reviewed, and acceptance/rejection decisions about a manuscript are based mainly on the importance, originality, clarity, and contribution of the submission to knowledge in the scope of EngiTek 2020.
